ROSETTA STONE AVAILABLE

Need to learn a second language to better serve customers or employees? Want to learn another language before international travel? As a resident of Umatilla County, you have access to the Rosetta Stone language learning database through one of the 12 city library's websites. Rosetta Stone offers 25 languages, from Spanish and English to Mandarin Chinese and Farsi.

Using Rosetta Stone is easy. All you need is your library card and PIN, along with a computer having broadband Internet connection – be it at the office, home, or library. For optimum use, a headset with a microphone and speakers is desirable. Don't have a library card? Have questions or problems with Rosetta Stone? Contact your local library staff. You can start learning a new language today.

Rosetta Stone provides cutting-edge interactive technology that is changing the way the world learns. The company was founded in 1992 on the core beliefs that learning to speak a language should be a natural and instinctive process, and that interactive technology can activate the language immersion method.

Rosetta Stone is a service provided to the cities' public libraries by the Umatilla County Special Library District at no cost to users.
